

City of Morro Bay - Bike Map

CLASSIFICATION

Bike Path (Class 1): Provides a completely separated right-of-way designated for the exclusive use of bicycles and pedestrians with crossflows by motorists minimized.

Bike Lane (Class 2): Provides a restricted right-of-way designated for the exclusive or semi-exclusive use of bicycles with through travel by motor vehicles or pedestrians prohibited, but with vehicle parking and crossflows by pedestrians and motorists permitted. Bike lanes typically provide for one-way bicycle travel adjacent to the motor vehicle lane.

Bike Route (Class 3): Provides a right-of-way designated by signs or permanent pavement markings and shared with pedestrians or motorists. Bike Routes provide continuity to other bicycle facilities and have an advantage over alternative routes.

Recreational Route: A scenic route on low-traffic roads. Rural roads may have high speed vehicle traffic, varying shoulder widths, and challenging climbs. Travel way is shared with vehicles.

Transit Stop: Both regional (RTA) and local (MBT) serve Morro Bay. Bikes are not allowed on the bus, but they are equipped with bike racks on a firstcome, first-served basis. RTA buses have room for up to 6 bikes and MBT up to 2 bikes. Bus schedules and routes are posted at the stop and online at slorta.org and morro-bay.ca.us/mbt.

Legend

Bike Paths

- Bike Bridge
- Pacific Coast Bike Route
